CLUB DES SPORTS
DE VAL D'ISÈRE
DEPUIS 1935

Possibility to collect the bibs of the Trail of 6 Cols on Saturday morning before 7:30 at the Club des Sports, we remind you that the presence at the briefing course of the HTV participants and T6C is very strongly recommended!

Each bib will be given individually on presentation of a piece of identification. This signing prove the runner's departure and the total acceptance of the rules. In case of a non-departure of the trailer, inform asap the organization and return as quickly possible the bib and the chip of the bag to a person of the organization.

BRING safety pins.

RESCUE, SECURITY, QUITTING

They will be provided by flagmen, first aiders and a medical team. There are 11 first aid stations on the HTV, 7 on the T6C and 2 on the Balconies, the stations are connected with radio or phone to the race to the headquarter. A medical regulatory team is present in the finish area in Val d'Isère. If the maximum-security measures are taken, the fact of being in a wild mountainous environment means that rescues can't be as easy and fast as they would be in an urban environment. Therefore, your safety will rely on the quality of the gears and clothes you had put in your bag. **Expenses resulting from the use of means of exceptional rescue or evacuation will be paid by the rescued person who will also ensure the return from where the person was evacuated.**

Rescue stations are intended to assist any person in danger with the means specific to the organization or agreements.

Except in the case where the racer's state of health requires an emergency evacuation, a runner must not abandon anywhere other than at a checkpoint offering a solution of repatriation.

It belongs to a runner in difficulty or seriously injured to call for help:

- showing up at a first aid station
- by calling the PC race: 07.81.18.47.73
- by asking another rider to notify the rescue
- by dialling 112

It is the responsibility of each rider to assist any person in danger and to call rescuers. In case of proven failure, the racer who has failed to give assistance to another runner in distress will be disqualified for life from Odlo High races Trail Vanoise!

Rescuers on medical advice and official doctors are in entitled to:

- To disqualify (invalidating the bib) any competitor unfit to keep on racing
- To evacuate by any means at their convenience the riders they think might be in danger.

If quitting the race, it is imperative and compulsory to report it to the closest aid post and give one's bib and chip on the bag.

The organization declines any responsibility in case of accident or failure resulting from a poor health.

Buses are available from Tignes Val Claret, La Daille, near the Sassièr, in Fornet and Iseran, for runners who have abandoned and / or who will not be on time.

If you quit before a checkpoint, it is imperative to return to the previous checkpoint and report to the people in charge. If during this return, the runner comes into the organizers closing the race, it is the latter who will invalidate the runner's bib. The runner is then not anymore under the control of the organization.

Any rider who has been put out of the race and wants to continue will not be able to do it unless his bib and his chip are given back. The person will stay on the race under his own responsibility and complete autonomy.
